FINAL ACTION

A. This action is in response to papers filed 19 December 2002 and 14 February 2003 in which the specification was amended to insert missing pages 54 and 54 and to cross-reference parent applications 09/515,124 and 09/276,820.

Applicant requests that the specification be amended to add missing pages 53-54. In a telephonic interview between Applicant's representative (Mr. Contera) and the examiner the Amendments of 12-19-02 were discussed. During the interview, Mr. Contera explained in detail how and why the missing pages do not constitute new matter. Details of the interview are presented in the Interview Summary of 12 February 2003 and the papers filed 14 February 2003. The examiner agreed with Mr. Contera's assessment of the missing pages and stated that pages 53-54 would be entered.

Applicant further requests that the specification be amended to incorporate by reference parent applications 09/276,820 and 09/515,124 as originally requested in papers filed 27-03-01. In view of Applicant's remarks and in view of the last paragraph of the originally filed specification wherein all cited references are incorporated by reference, the amendments filed 27-03-01 incorporating the parent applications by reference are entered.

B. This action is further in response to papers filed 26 June 2001 in which Claim 30 was canceled and new Claims 58-77 were added. These papers were non-responsive to the Office Action of 25 June 2001. The amendments were entered.

C. This action is further in response to papers filed 20 December 2001 in which the Abstract was amended to contain 150 words or less; Claims 63, 65, 68, 72-74 and 76-77 were amended; and a Response to the Office Action of 25 June 2001 was submitted. The amendments have been thoroughly reviewed and entered. The previous rejection of Claim 30 is withdrawn in view of the cancellation of Claim 30. New Claims 58-77 are addressed below.

Restrictions

D. Newly submitted claims 58-77 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Previously rejected Claim 30 was drawn to a primer molecule comprising a PCR amplifiable sequence and a degenerate 3' terminus. The newly submitted claims are drawn to methods for expressing a protein and a cell expressing a protein. The Inventions of Claim 30 and newly submitted Claims 58-77 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are not disclosed as capable of use together and they have different functions i.e. the invention of Claim 30 functions as a primer; the invention of Claims 58-71 and 75 function to produce a protein; and the invention of Claims 72-74 and 76-77 function as a protein expressing cell. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits.

Accordingly, claims 58-77 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Status of the Claims

E. Claims 1-57 are canceled.

Claims 58-77 are withdrawn from consideration.

F. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1634

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Conclusion

G. No claim is allowed.
